Standout address for this superb family residence. Enjoy the views from the front verandah across Tatton and right over Lake Albert. There are 4 double bedrooms and 2 distinct living areas. The formal lounge enjoys the elevated views, with the other casual living area flowing from the kitchen to the recreational outdoor space accompanying the in ground pool.

All the comforts of a home of this class are included with ensuite bathroom and air conditioning throughout. Internal stairs access the living space with the oversize garage and under house storage and workshop space.

This massive block has been professionally tiered with retaining walls that offers level yard space for young children to play and run. Only a short stroll to primary school and all other school buses are less than a block away.
